

HUMA® SAFETY DATA SHEET Boron

HMIS HEALTH 2 **FLAMMABILITY** 0 PHYSICAL HAZARD 0 С **PPE**

OFOTION 4	CHEMICAL BECEING	Γ & COMPANY IDENTIF	
SECTION 1.	THE WITE AT DECIDING	X.	

Product # 020 PRODUCT IDENTIFIER: **Boron**

GENERAL USE: Used as a part of a plant nutrition program.

PRODUCT DESCRIPTION: A slightly hazy, light amber liquid having a unique, characteristic odor.

INFORMATION PROVIDED BY: Huma, Inc.

> 1331 W Houston Avenue Gilbert, AZ 85233

For SDS call: PHONE: (480) 961-1220 **EMERGENCY PHONE NUMBERS**

CHEMTREC: (In the USA) 800-424-9300

(International) 703-527-3887

SECTION 2: HAZARDS IDENTIFICATION

HAZARDS OVERVIEW: A slightly hazy, light amber, liquid having a unique, characteristic odor. The liquid and mists may cause moderate to severe eye irritation and may cause moderate skin irritation. Inhalation of vapors or mists may cause irritation to the entire respiratory tract. Ingestion may cause irritation to the entire gastrointestinal tract.

CLASSIFICATION: HAZARD CATEGORY 5 - MAY BE HARMFUL IF SWALLOWED

SIGNAL WORD: WARNING

HAZARD STATEMENT: H303 - WARNING - may be harmful if swallowed.

PRECAUTIONARY STATEMENT: P301+P317—If swallowed, get emergency medical help.

SECTION 3: COMPOSITION & INFORMATION ON INGREDIENTS

				ACGI	Н	OSF	IA
COMPONENT	CAS#	OSHA HAZARD	WT %	TLV _(TWA)	STEL	PEL _(TWA)	STEL
Boric Acid	10043-35-3	Eye, Skin & Respiratory Irritant; Toxic by Ingestion; Kidney, Gastrointestinal & Central Nervous Systems toxin	22.5 ± 3	2 mg/m³ Inhalable Fraction	6 mg/m³ Inhalable Fraction	None	None
Monoethanolamine	141-43-5	Eye, Skin, Respiratory Irritant; Possible Liver & Kidney toxin	8 ± 2	7.5 mg/m ³	None	6 mg/m ³	None

NDA = No Data Available N/A = Not Applicable

SECTION 4: FIRST AID MEASURES

INHALATION: If inhaled, immediately move to fresh air. If not breathing, give artificial respiration, preferably mouth-to-mouth.

If breathing is difficult, give oxygen. Call a physician.

EYE CONTACT: In case of contact, immediately flush eyes with plenty of clean running water for at least 15 minutes, lifting the

upper and lower lids occasionally. Remove contact lenses, if worn. Get medical attention.

SKIN CONTACT: In case of contact, flush skin with plenty of clean running water. Remove contaminated clothing and shoes, and

wash before reuse. If irritation occurs and persists, get medical attention.

INGESTION: If large quantities of this product are swallowed, call a physician immediately. DO NOT induce vomiting unless

directed to do so by medical personnel. Never give anything by mouth to an unconscious person.

NOTE TO PHYSICIANS: The hazards associated with this product are mainly due to the toxicity of the Boric Acid and its irritant

properties to eyes, skin and mucous membranes. If a large amount of this product is swallowed, careful gastric lavage with an endotracheal tube in place should be considered. Treat exposure symptomatically.

SECTION 5: FIRE FIGHTING MEASURES

Flashpoint and Method: Greater than 100° C. (212° F.) Pensky-Martins Closed Tester (ASTM D 93)

Flammable Limits (in air, % by volume) Lower: No data available Upper: No data available

Autoignition Temperature: Not determined

GENERAL HAZARD: This product is not a combustible liquid under OSHA or WHMIS regulations. This product may be ignited at

elevated temperatures and can burn after the water has evaporated. The Uniform Fire Code health hazard classification for this product is: Irritant. This product may produce hazardous vapors or hazardous

decomposition products.

FIRE FIGHTING INSTRUCTIONS: **EXTINGUISHING MEDIA:** Water fog, foam, CO₂ or dry chemicals.

Use a water fog or spray to cool the containers exposed to the heat of a fire.

FIRE FIGHTING EQUIPMENT: Fire fighters should wear full protective equipment, including self-contained breathing

apparatus.

HAZARDOUS COMBUSTION PRODUCTS: When heated to dryness and decomposition, it emits toxic carbon monoxide, carbon

> dioxide, nitrogen oxides and boron oxide, with trace or ultra-trace toxic oxide amounts, of phosphorus, potassium, sulfur, iron, zinc, manganese, magnesium, calcium and

SECTION 6: ACCIDENTAL RELEASE MEASURES

RELEASE TO LAND:

Wearing recommended protective equipment and clothing, dike the spill and pick up the bulk of the liquid using pumps or vacuum truck for disposal in accordance with Federal, State and local regulations. Absorb the remaining liquid using sand, or commercial absorbent; dispose as Federal, State and local requirements dictate. Flush the spill area with water; collect the rinsates for disposal as the regulations require.

RELEASE TO

WATER:

Wear recommended protective equipment and clothing if contact with hazardous material can occur. Stop or divert water flow. Dike contaminated water and remove for disposal and/or treatment. As appropriate, notify all

downstream users of possible contamination.

SECTION 7: HANDLING AND STORAGE

STORAGE TEMPERATURE: Ambient STORAGE PRESSURE: Ambient

GENERAL:

Store in a cool, dry, well ventilated area away from incompatible materials and products. Protect eyes, skin and clothing from contact with this product. Wear recommended personnel protective equipment. Avoid breathing vapors, mists or aerosols. Use with adequate ventilation. Keep the containers tightly closed when not in use. Wash thoroughly after handling this product. The empty containers may be hazardous. They may contain organic residues that can be ignited and will burn. Do not cut, puncture or weld on or near these containers.

SECTION 8: EXPOSURE CONTROLS / PERSONAL PROTECTION

CONTROL Use a local or general mechanical exhaust ventilation system capable of maintaining emissions in the work area

below the ACGIH-TLV or levels that may cause irritation. **MEASURES:**

RECOMMENDED PERSONAL PROTECTIVE EQUIPMENT

Respiratory protection is not normally required. If use creates mists or aerosols, or if an ACGIH-TLV is RESPIRATOR:

exceeded, a NIOSH approved full facepiece or half mask air-purifying cartridge respirator equipped with an organic vapor cartridge and a dust / mist pre-filter or supplied air is required. Note: Always consult the respirator

manufacturer's data when determining the suitability of respiratory protective devices prior to use.

Wear chemical goggles (recommended by ANSI Z87.1-1979), unless a full facepiece respirator is worn. Note: EYES:

Always consult the protective eyewear manufacturer's data when determining the suitability of protective

eyewear prior to use.

GLOVES: Wear Butyl Rubber, Neoprene or Natural Rubber gloves. Note: Always consult the glove manufacturer's

permeation data when determining the suitability of gloves prior to use.

CLOTHING & Wear a Butyl Rubber, Neoprene or Natural Rubber apron when handling this product. An eye wash station and **EQUIPMENT:** safety shower should be available in the work area. Note: Always consult the clothing/equipment

manufacturer's permeation data when determining the suitability of clothing/equipment prior to use.

FOOTWEAR: Wear Butyl Rubber, Neoprene or Natural Rubber boots. Note: Always consult the footwear manufacturer's

permeation data when determining the suitability of footwear prior to use.

SECTION 9: PHYSICAL AND CHEMICAL PROPERTIES							
Appearance:	A slightly hazy, light amber	Bulk Density (pounds/ft³):	Not applicable				
Physical State:	Liquid	Vapor Pressure:	No data available				
Odor:	Unique, characteristic	Vapor Density (air=1):	No data available				
Odor Threshold:	No data available	Evaporation Rate (n-Butyl Acetate=1):	No data available				
Molecular Formula:	Mixture	VOC Content / Organic Matter:	No data available/ 5.0%				
Molecular Weight:	Not applicable	% Volatile:	No data available				
Boiling Point:	Greater than 100° C. (212° F.)	Solubility in H₂O:	Complete				
Freezing/Melting Point:	Less than 0° C. (32° F.)	Octanol/Water Partition Coefficient:	No data available				
Specific Gravity:	1.17 @ 20° C.	pH (as is):	7.0–8.0				
Density (pounds/gallon):	Approximately 9.76	pH (1% solution):	No data available				

SECTION 10: STABILITY AND REACTIVITY

This product is stable and hazardous polymerization will not occur.

CONDITIONS TO AVOID: Store in a cool dry place, do not store in direct sunlight.

INCOMPATIBLE MATERIAL: Strong oxidizers, caustics and acids. It may react with nitrites to create nitrosamines, which may

cause cancer.

HAZARDOUS DECOMPOSITION PRODUCTS: When heated to dryness and decomposition, it emits toxic oxides of carbon

nitrogen and boron, with trace or ultra-trace toxic oxide amounts, of phosphorus,

potassium, sulfur, iron, zinc, manganese, magnesium, calcium and sodium

SENSITIVITY TO MECHANICAL IMPACT: This product is not sensitive to mechanical impact.

SENSITIVITY TO STATIC DISCHARGE: This product is not sensitive to static discharge.

SECTION 11: TOXICOLOGICAL INFORMATION (additional toxicological information in section 16)

Components: **Boric Acid Monoethanolamine Eye Contact Rabbit:** No data available Irritant Similar to OECD Guideline 404 No sensitizing effect (OECD Guideline 406) **Skin Contact:** Human Standard Draize Test: 15 mg/3 Days; Mild Oral Rat LD50: 2,660 mg/kg 1,515 mg/kg (OECD Guideline 401) Dermal Rabbit LD₅₀: No data available (Dermal Infant TD_{Lo}: 1,200 mg/kg) 2,504 mg/kg (OECD Guideline 402) Inhalation Rat LC₅₀: 28 mg/m³/4 hours >1.3 mg/l (IRT) Exposure time 6 hours **Human Data:** Oral Woman LD_{Lo}: 200 mg/kg No data available Other Toxicological Data: Oral Child TD_{Lo}: 500 mg/kg; Gastrointestinal Effects: None Nausea or vomiting Carcinogenicity: No data available Assessment of carcinogenicity: The whole of the information assessable provides no indication of a carcinogenic effect. Teratogenicity: Oral Rat TD₁₀: 6,600 mg/kg (female 1 – 21 Days In animal studies substance did not cause malformations pregnant); Effects on Embryo or Fetus - Fetotoxicity; Specific Developmental Abnormalities -Musculoskeletal system Mutagenicity: Bacteria – E Coli Mutations in Microorganisms: 17,000 No known effects in humans or animals ppm/24 hours (-S9)

Synergistic Products: None reported

Target Organs: Eyes, Skin, Lungs, Kidneys, Gastrointestinal & Central

Medical Conditions Skin, Respiratory, Kidney or Gastrointestinal disorders Aggravated By Exposure:

Not known

Eyes, Skin, Lungs

Data available do not indicate that there are medical

conditions that are generally recognized as being aggravated

by exposure to this substance/product

SECTION 12: ECOLOGICAL INFORMATION

ENVIRONMENTAL FATE:

This product is completely soluble in water and is not expected to affect the pH of water. No specific environmental fate data is available, but the organic portion of this product is expected to be biodegradable.

ENVIRONMENTAL CONSIDERATIONS:

The aquatic toxicity for this product has not been determined.

SECTION 13: DISPOSAL CONSIDERATIONS

RCRA 40 CFR 261 CLASSIFICATON: Non-Hazardous Waste

U.S. EPA WASTE NUMBER/DESCRIPTION: Not applicable

If this product is disposed of as shipped, it does not meet the criteria of a hazardous waste as defined under 40 CFR 261, in that it does not exhibit the characteristics of a hazardous waste of Subpart C, nor is it listed as a hazardous waste under Subpart D due to toxicity. As a non-hazardous liquid waste, it should be disposed of in accordance with all local, state, and federal regulations. Consult state or local officials for proper disposal method.

SECTION 14: TRANSPORTATION INFORMATION

DOT PROPER SHIPPING NAME: NOT DOT REGULATED (UNITED STATES)

Hazard Class: Not applicable UN Number: Not applicable Packing Group: Not applicable

SECTION 16: OTHER INFORMATION

Special Notes:

This product is not manufactured, or formulated to contain substances, which the State of California has found to cause cancer and/or birth defects or other reproductive harm.

Special Instructions:

Do not add nitrites to Boron Amines can combine with nitrites or other nitrosating agents to form nitrosamines. Many nitrosamines have been found to cause cancer in laboratory animals. Store this product in a cool, dry, ventilated area away from incompatible materials and products.
