HUMA®

# COMOL™

## INSTRUCTIONS

**PREPARATION:** Shake well before use. Can be applied in combination with compatible plant growth regulators, pesticides, or other liquid fertilizers. If compatibility is in question, jar test a small quantity. Do not foliarly apply this product in concentrations greater than 10% without a preliminary foliar test.

**APPLICATION:** Designed for soil and/or foliar application. This product supplies nutrients to plants and should be applied when tissue and soil analysis identifies the need and proper rate of application for this product. The best results will be obtained when application is concentrated in the active root zone or on the plant surface. Apply foliar sprays with sufficient water to ensure uniform coverage without running off leaf surfaces. For maximum results, apply early in the morning or in the evening when air temperatures are optimum for foliar application. Full label rates can be applied as often as every 7–10 days, as needed.

**CONDITIONS:** Do not apply nutrients during the hottest time of the day or to plants under drought or flood stress. Application timing, intervals, and rates may vary according to individual plant requirement, stage of development, available nutrient levels in the soil, and overall nutritional status of the plants.

**CONSULT:** Consult your local Huma® Representative or qualified individual/institution for use-specific recommendations.

**STORAGE & DISPOSAL:** Do not store this product below 50°F (10°C) or above 90°F (30°C). Keep product in original container. Do not transfer into food or drink containers. Triple rinse container when empty for recycling. Always dispose of container in accordance with local, state, and/or federal regulations.

**DISCLAIMER:** This product is intended as a supplement to a regular fertilization program and will not, by itself, provide all the nutrients normally required by plants.

## 0-5-0
## GUARANTEED ANALYSIS

| | |
|---|---|
| Available Phosphate ($P_2O_5$) | 5.0% |
| Cobalt (Co) | 1.0% |
| Molybdenum (Mo) | 3.0% |

Derived from Phosphoric Acid, Cobalt Sulfate, and Sodium Molybdate.

## SHAKE WELL BEFORE USE

Do not foliarly apply this product in concentrations greater than 10% without a preliminary foliar test.

Full label rates can be applied as often as every 7 to 10 days, as needed.

WARNING: The application of fertilizing materials containing molybdenum may result in forage crops containing levels of molybdenum that are toxic to ruminant animals.

## APPLICATION

| METHOD | SUGGESTED RATE | | |
|---|---|---|---|
| | Field Crops, Sod, and Specialty Crops | | Tree or Vine Crops |
| Foliar band application at 50% coverage | Up to 1 cup/ac, 700 mL/ha | Up to 0.5 oz/1000 ft² 16 mL/100 m² | – |
| Foliar broadcast or sprinklers: solid, set, linear, or pivot (100% speed) | Up to 1 pt/ac, 1.25 L/ha | Up to 1 oz/1000 ft² 35 mL/100 m² | Up to 1 qt/ac, 2.5 L/ha |
| Soil banded or injected through drip tape or micro sprinklers | Up to 1 pt/ac, 1.25 L/ha | Up to 1 oz/1000 ft² 35 mL/100 m² | Up to 1 qt/ac, 2.5 L/ha |
| Soil broadcast spray incorporated, flood or furrow irrigated | Up to 1 qt/ac, 2.5 L/ha | Up to 2 oz/1000 ft² 70 mL/100 m² | Up to 2 qt/ac, 5 L/ha |

9.68 lb per gallon @ 68° F.
1.16 kg per liter @ 20° C.
pH 1.0–2.0

2.5 gallons • Net Wt. 24.20 lb
9.46 liters • Net Wt. 10.97 kg

## SAFETY

**KEEP OUT OF REACH OF CHILDREN**

Information regarding the contents and levels of metals in this product is available on the Internet at: https://www.aapfco.org/metals.html

The mists and liquid may cause severe irritation or burns to all tissues contacted. Phosphoric acid may generate flammable hydrogen gas on contact with many metals. The NIOSH IDLH for phosphoric acid is 1,000 mg/m³.

**CLASSIFICATION:** CATEGORY 1A – SKIN CORROSION
**SIGNAL WORD:** DANGER
**HAZARD STATEMENT:** H314 Causes severe skin burns and eye damage.

**PRECAUTIONARY STATEMENT:** P260 Do not breathe dusts/mist/vapors; P280 Wear protective gloves/protective clothing/eye protection/face protection; P264 Wash hands thoroughly after handling.

**PRODUCT CHARACTERISTICS:** Clear to slightly hazy, dark blue, strongly acidic liquid having a slight characteristic odor. The color, pH, specific gravity, as well as the smell, can vary. Variations may occur due to changes in temperature, atmospheric pressure, weather conditions, and/or exposure to light from when the product leaves the factory until it reaches the final consumer.

**CONDITIONS OF SALE:** The information contained on this label is believed to be accurate and reliable. Buyer and user acknowledge and assume all liability resulting from the use of this material. Follow directions carefully. Timing, method of application, weather, plant and soil conditions, and other factors are beyond the control of the seller.
