KLEENUP™

Environmental

What is Kleenup™?

A scientific formulation of natural ingredients based in and delivered by Micro Carbon Technology®.

What does Kleenup™ do?

Balances the natural microbial ecosystems of soil and water for increased bio-oxidation capacity. In addition, it catalyzes the breakdown of chemical and petroleum products and promotes microbial proliferation causing the bio-degradation into harmless by-products of carbon dioxide, water and humus. It is effective in detoxifying and sequestering heavy metals in soil and water resulting in more balanced ecosystems.

Benefits of Use:

- Aids in the breakdown of chemical and petroleum contaminants in soil.
- Aids in the detoxification of plants from chemical residues.

DIRECTIONS FOR USE:

Shake well before use. Designed to be applied in water and/or soil. Best results will be obtained when product is evenly distributed across the water or soil surface. Apply KLEENUP™ as a spray with sufficient water to ensure uniform coverage. Do not apply this product in concentrations greater than 10%. For maximum results apply diluted product via spray application. Application timing, intervals and rates may vary according to individual situation, degree of contamination, existing available nutrient levels in the soil or water column, and overall condition of the site. Applications can be made as often as every 7 to 10 days as needed in soil or continuously based on flow in water.

CONSULT: Consult your local Huma® Environmental Representative or other soil or wastewater specialist for site-specific recommendations.

DISCLAIMER: This product is intended as a supplement to a complete nutrition program and will not, by itself, provide all the nutrients normally required by microorganisms.

CONTAINS BENEFICIAL SUBSTANCES:
8.0% Organic Matter (derived from humic substances)

Derived from Urea, Ammonium Nitrate, Iron HEDTA, Manganese EDTA and Zinc EDTA.

APPLICATION

METHOD OF APPLICATION	SOIL PER ACRE / WATER PER VOLUME
Initial Application	Up to 2 qt/ac Up to 7 ppm
Maintenance Dosage	Up to 2 qt/ac Up to 4 ppm

CONTACT YOUR LOCAL HUMA® ENVIRONMENTAL REPRESENTATIVE FOR SPECIFIC USAGE RECOMMENDATIONS.

9.93 lb per gallon @ 68°F.
1.19 kg per liter @ 20°C.
pH 5.5–6.5

2.5 gallons • Net Wt. 24.83 lb
9.46 liters • Net Wt. 11.26 kg

Lot No. 12345678

SAFETY

The liquid and mists may be irritating to the eyes and skin. Inhalation of mists may be irritating to the entire respiratory tract. Ingestion of this product may cause gastrointestinal irritation, or cardiovascular and central nervous system effects.

CLASSIFICATION: HAZARD CATEGORY 3—MILD SKIN IRRITATION
SIGNAL WORD: WARNING
HAZARD STATEMENT: H316—WARNING—Causes mild skin irritation.
PRECAUTIONARY STATEMENT: P332+P317—If skin irritation occurs, get emergency medical help.

PRODUCT CHARACTERISTICS: A clear to hazy, brown liquid, having a slight characteristic odor. The color, pH, specific gravity, as well as the smell, can vary as this product is a formulation made with organic and organically active ingredients. Variations may occur due to changes in temperature, atmospheric pressure, weather conditions, and/or exposure to light from when the product leaves the factory until it reaches the final consumer.

STORAGE AND DISPOSAL:

Keep product in original container. Do not transfer into food or drink containers. Triple rinse when empty for recycling. Always dispose of container in accordance with local, state, and/or federal regulations.

CONDITIONS OF SALE:

The information contained on this label is believed to be accurate and reliable. Buyer and user acknowledge and assume all liability resulting from the use of this material. Follow directions carefully. Timing, method of application, weather, and other factors are beyond the control of the seller.
