MICROPLEX[®] JS

For Wastewater Treatment in Lagoons, Aeration Basins, Digesters, and Sludge Holding Tanks

Formulated to help inoculate new or recovering wastewater systems, as well as maintain the existing microbial ecosystem to increase bio-oxidation capacity.

- Lowers BOD, COD, and odors
- Improves clarity and settling of solids
- Reduces sludge productions and helps prevent bulking

PART A

50 mL Concentrate makes 50 Gal of finished product.

Mix Part A & Part B in 50 gallon drum of clean water.

Apply mixed product per recommended dosing. Use within 30 days of mixing. Shake well before use.

See PTB for Application Table
