

OM PULVERIZED

INSTRUCTIONS

PREPARATION: This product is ideally suited for alkali extraction of humic and fulvic acids and in manufacturing. Can be impregnated in a granularization process with compatible granular NPK fertilizers or integrated into a process for coating dry granular fertilizers. Avoid mixing with high-moisture fertilizers such as granular urea.

CONDITIONS: Application timing, intervals, and rates may vary according to individual plant requirement, stage of development, available nutrient levels in the soil, and overall nutritional status of the plants.

CONSULT: Consult your local Huma® Representative or qualified individual/institution for use-specific recommendations.

STORAGE & DISPOSAL: Keep product in original bag. Do not transfer into food or drink containers. Always dispose of bag in accordance with local, state, and/or federal regulations.

DISCLAIMER: This product is intended as a supplement to a regular fertilization program and will not, by itself, provide all the nutrients normally required by plants.
