## The Organic Solution for Zinc Nutrition

Carbon-complexed with Micro Carbon Technology®, OMRI-Listed Huma® **OM Zinc** is an organic zinc nutrient derived from zinc sulfate. Huma® **OM Zinc** ensures maximum assimilation of zinc, which is essential for cell multiplication and plays an important role in water uptake, phytohormone activity, and the uptake of other nutrients. Zinc nutrition plays a central role in a number of plant defenses against environmental stresses.

### Benefits of Use:

- Effectively treats zinc deficiency symptoms
- Provides quick crop response and can be applied just prior to actual crop need
- Can be applied foliarly (according to label directions) without risk of phytotoxicity
- Can be effectively tank-mixed with other organic crop inputs
- Resists tie-up in the soil and remains available through the plant root system

### Application Instructions:

SHAKE WELL BEFORE USING. Can be applied in combination with compatible plant growth regulators, pesticides, or other liquid fertilizers. If compatibility is in question, jar test a small quantity.
