

PHYTO-MAX™

Environmental

What is Phyto-Max™?

Phyto-Max™ is a pond food that creates a healthy green phytoplankton bloom in open waters.

What does Phyto-Max™ do?

Phyto-Max™ uses a balanced nutrition approach to prevent sudden algae die-offs created by nutrient deficiencies and nutrient imbalances. Phyto-Max™ provides a balanced mixture of micronutrients and helps nutrients release from the pond muds to create a uniform, sustainable phytoplankton bloom.

Ponds enriched with PHYTO-MAX™:

- Maintain healthy green phytoplankton blooms.
- Leads to reduced incidences of blue green algae and submerged vegetation growth.
- Improves sportfish production or other aquaculture production

CONTAINS BENEFICIAL SUBSTANCES:
8.9% Organic Matter (derived from humic substances)

Derived from Urea, Ammonium Nitrate, Monopotassium Phosphate, Ammonium Sulfate, Diammonium Phosphate, Monoammonium Phosphate, and Cobalt Sulfate.

SHAKE WELL BEFORE USE

APPLICATION

After water temperatures reach 55°F, Phyto-Max™ should be applied at a ratio of up to 200 ppm based on water volume, every 7-10 days. Rate may be reduced by 1/2 after the phytoplankton bloom is established. If a phytoplankton bloom does not develop within the first week of sunny, warm weather, apply dosage more frequently, such as every 3-5 days. New ponds may require continuous application of Phyto-Max™ throughout the season. Best results will be obtained when Phyto-Max™ is sprayed evenly across the pond. It may also be applied to the pond by simply diluting and adding in several places around the pond.

METHOD OF APPLICATION	OPEN PONDS
Initial Application: Spray evenly over surface	up to 200 ppm
Maintenance Dosage: Spray evenly over surface	up to 100 ppm

CONTACT YOUR LOCAL HUMA® ENVIRONMENTAL REPRESENTATIVE FOR SPECIFIC USAGE RECOMMENDATIONS.

10.09 lb per gallon @ 68°F.
1.21 kg per liter @ 20°C.
pH 6.0-6.5

2.5 gallons • Net Wt. 25.23 lb
9.46 liters • Net Wt. 11.45 kg
Lot No. 12345678

SAFETY

KEEP OUT OF REACH OF CHILDREN

The liquid and mists may be irritating to the eyes and skin. Inhalation of mists may be irritating to the entire respiratory tract. Ingestion of this product may cause gastrointestinal irritation, cardiovascular and central nervous system effects.

PRODUCT CHARACTERISTICS: Hazy reddish brown liquid with a slight characteristic odor. The color, pH, specific gravity, as well as the smell, can vary as this product is a formulation made with organic and organically active ingredients. Variations may occur due to changes in temperature, atmospheric pressure, weather conditions, and/or exposure to light from when the product leaves the factory until it reaches the final consumer.

STORAGE AND DISPOSAL:

Keep product in original container. Do not transfer into food or drink containers. Triple rinse when empty for recycling. Always dispose of container in accordance with local, state, and/or federal regulations.

CONDITIONS OF SALE:

The information contained on this label is believed to be accurate and reliable. Buyer and user acknowledge and assume all liability resulting from the use of this material. Follow directions carefully. Timing, method of application, weather, and other factors are beyond the control of the seller.
