

INSTRUCTIONS

PREPARATION: Shake well before use. This product will separate. Constant tank agitation is required to ensure a homogenous tank mixture. This product mixes readily with water. To prepare the spray mixture, fill the mix or spray tank with three-fourths of the required amount add the proper amount of Proud 3[®]. Complete filling the mix or spray tank with the balance of water needed. Mix well, continually stirring. Determine compatibility with other additives prior to mixing by performing a jar test using appropriate quantities of each material and water. Can be used with most chemical pesticides as a tank mix or in a rotation program.

APPLICATION: Apply spray solution in properly maintained and calibrated equipment capable of delivering the desired volumes. As this product functions mostly on contact, the more complete the soil coverage, the better the product performs. Ensure application of the spray solution on both sides of the foliage. For the best results, apply in early morning or late in the afternoon. Do not apply in rainy or windy conditions or on water-stressed plants. Use the volume of water necessary for uniform and 360° spray coverage without running off. Use lower rates for light infestations, moderate rates for moderate infestations, and higher rates for heavy infestations. Repeat application every 5 to 7 days to maintain the desired level of control.

CONSULT: Consult your local Huma[®] Representative or qualified individual/institution for use-specific recommendations.

STORAGE & DISPOSAL: Store in a cool, dry, well-ventilated area, away from incompatible materials and products. If this product is disposed of as shipped, it does not meet the criteria of a hazardous waste as defined under 40 CFR 261, in that it does not exhibit the characteristics of a hazardous waste of Subpart C, nor is it listed as a hazardous waste under Subpart D due to toxicity. As a non-hazardous liquid waste, it should be disposed of in accordance with all local, state, and federal regulations. Consult state or local officials for proper disposal method.

DISCLAIMER: This product has not been registered by the U.S. Environmental Protection Agency. Huma[®], Inc. represents that this product is NOP compliant and qualifies for exemption from registration under the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA).

CONDITIONS OF SALE: The information contained on this label is believed to be accurate and reliable. Buyer and user acknowledge and assume all liability resulting from the use of this material. Follow directions carefully. Timing, method of application, weather, plant conditions, and other factors are beyond the control of the seller.

ACTIVE INGREDIENTS

Thyme Oil	5.5%
Inert Ingredients*	94.5%
Total Ingredients	100.0%

*Contains water, molasses, glycerin

Proud 3[®] is a broad-spectrum insecticide, miticide, and fungicide with on-contact and some local systemic activity. Safe for all plants when used as directed. For use on all food or nonfood crops. It controls pests such as thrips, whiteflies, mites and leafhoppers, and diseases such as Botrytis gray mold, powdery mildew, and Phytophthora late blight. Proud 3[®] has limited residual control. Repeat treatments will be necessary if a problem persists. Preharvest interval: Proud 3[®] may be applied at any time up to and including the day of harvest with zero re-entry restrictions.

SHAKE WELL BEFORE USE

Repeat application every 5 to 7 days to maintain the desired level of control. May be applied at any time up to and including the day of harvest with zero re-entry restrictions.

APPLICATION

SUGGESTED RATE OF PROUD 3 [®]	WATER VOLUME / ACRE	SUGGESTED RATE OF PROUD 3 [®]	WATER VOLUME / HECTARE
0.5–1 qt	15–25 gal/ac	1.25–2.5 L	125–250 L/ha
1–2 qt	25–50 gal/ac	2.5–5 L	250–500 L/ha
2–4 qt	50–100 gal/ac	5–10 L	500–1,000 L/ha
4–8 qt	100–200 gal/ac	10–20 L	1,000–2,000 L/ha

PRODUCT CHARACTERISTICS: A hazy to opaque, brown liquid having a unique characteristic odor. The color, pH, specific gravity, as well as the smell, can vary. Variations may occur due to changes in temperature, atmospheric pressure, weather conditions, and/or exposure to light from when the product leaves the factory until it reaches the final consumer.

SAFETY

KEEP OUT OF REACH OF CHILDREN

To protect eyes and skin from contact with this product, applicators and other handlers must wear a long-sleeved shirt, long pants, shoes and socks, protective eyewear, and chemical resistant gloves made of neoprene, nitrile, or natural rubber. Avoid breathing vapors, aerosols, or mists. Use with adequate ventilation. Do not take internally. Keep the container tightly closed when not in use. Wash thoroughly with soap and water after handling this product.

Exposure to this product's mists or liquid may cause severe irritation to the eyes and may cause irritation to the skin and respiratory tract, especially on prolonged exposure. This product can be toxic upon ingestion.

CLASSIFICATION: HAZARD CATEGORY 3–MILD SKIN IRRITATION

SIGNAL WORD: WARNING

HAZARD STATEMENT: H316–WARNING—Causes mild skin irritation.

PRECAUTIONARY STATEMENT: P332+P317–If skin irritation occurs, get emergency medical help.

FIRST AID MEASURES:

INHALATION: If inhaled, immediately move to fresh air. If not breathing, give artificial respiration. Do not use mouth-to-mouth method if victim ingested or inhaled the substance; use the Holger Nielson method (back pressure–arm lift) or proper respiratory device. If breathing is difficult, give oxygen. Call a physician.

EYE CONTACT: In case of contact, remove contact lenses, if worn, and immediately flush eyes with plenty of clean running water for at least 15 minutes. Get medical attention as soon as possible.

SKIN CONTACT: In case of contact, immediately flush skin with plenty of clean running water for at least 15 minutes, while removing contaminated clothing and shoes. If burn or irritation occurs, call a physician.

INGESTION: If swallowed, DO NOT induce vomiting. Get medical attention immediately. If victim is fully conscious, give plenty of water to drink. Never give anything by mouth to an unconscious person.

NOTE TO PHYSICIANS: Aspiration hazard. May cause lung injury if ingested while swallowing or vomiting. Stomach or esophageal irritation, possibly severe, may occur. Consider careful endoscopy or gastric lavage with an endotracheal tube. Treat exposure symptomatically.
