|                        | SECTION 4: FIRST AID MEASURES   |  |  |  |  |  |
|------------------------|---|--|--|--|--|--|
| INHALATION:            | If inhaled, immediately move to fresh air. If not breathing, give artificial respiration. Do not use mouth-to-mo<br>method if victim ingested or inhaled the substance; use the Holger Nielsen method (back pressure-arm lift) or pro<br>respiratory device. If breathing is difficult, give oxygen. Call a physician.  |  |  |  |  |  |
| EYE CONTACT            | In case of contact, immediately flush eyes with plenty of clean running water for at least 15 minutes, lifting the upper and lower lids occasionally. Remove contact lenses, if worn. Get medical attention immediately.  |  |  |  |  |  |
| SKIN CONTAC            | CT: In case of contact, immediately flush skin with plenty of clean running water for at least 15 minutes, while removing contaminated clothing and shoes. If burn or irritation occurs, call a physician.  |  |  |  |  |  |
| INGESTION:             | If swallowed DO NOT induce vomiting. Get medical attention immediately. If victim is fully conscious, give plenty of water to drink. Never give anything by mouth to an unconscious person.   |  |  |  |  |  |
| NOTE TO<br>PHYSICIANS: | Potassium Hydroxide solutions are corrosive to the eyes, skin and mucous membranes and are moderately toxic by ingestion. If ingested, consideration should be given to careful endoscopy as stomach or esophageal burns, perforations or strictures may occur. Careful gastric lavage with an endotracheal tube in place should be considered. Treat exposure symptomatically.   |  |  |  |  |  |
|                        | SECTION 5: FIRE FIGHTING MEASURES   |  |  |  |  |  |
| Flashpoint             | and Method: This product does not flash.  |  |  |  |  |  |
| Flammable              | Limits (in air, % by volume) Lower: Not applicable Upper: Not applicable  |  |  |  |  |  |
| Autoignitio            | n Temperature: Not applicable   |  |  |  |  |  |
| GENERAL HAZ            | <b>ZARD:</b> This product is a non-combustible, inorganic, aqueous solution. The Uniform Fire Code health hazard classification for this product is: <b>Corrosive (Alkaline).</b> Diluted solutions of this product can also be corrosive and may generate flammable / explosive Hydrogen gas on contact with some soft metals (such as Aluminum). It may produce hazardous mists or hazardous decomposition products.  |  |  |  |  |  |
| FIRE FIGHTING          | G INSTRUCTIONS:EXTINGUISHING MEDIA:Water, foam, CO2 or dry chemicals.Use a water spray or fog to cool the containers exposed to the heat of a fire.   |  |  |  |  |  |
| FIRE FIGHTING          | <b>GEQUIPMENT:</b> Fire fighters should wear full protective equipment, including self-contained breathing apparatus.   |  |  |  |  |  |
| HAZARDOUS              | <b>COMBUSTION PRODUCTS:</b> When heated to dryness and decomposition, it emits toxic potassium oxide, and trace toxic oxide amounts of phosphorus, nitrogen, sulfur, iron, zinc, manganese, magnesium, calcium, sodium and carbon.  |  |  |  |  |  |
|                        | SECTION 6: ACCIDENTAL RELEASE MEASURES  |  |  |  |  |  |
| RELEASE TO<br>LAND:    | <b>TO</b> Wearing recommended protective equipment and clothing, dike the spill and pick up the bulk of liquid using pumps or a vacuum truck, or absorb the liquid in sand or a commercially absorbent material. Place in approved containers for recovery, disposal, or satellite accumulation. Neutralize the alkalinity, of the remaining liquid, using a dilute acid solution appropriate for neutralizing alkaline liquids. Liberally cover the spill area with sodium bicarbonate. Flush the spill area with water; collect the rinsates for disposal or sewer, as appropriate. |  |  |  |  |  |
| RELEASE TO<br>WATER:   | Wear recommended protective equipment and clothing if contact with hazardous material can occur. Stop or divert water flow. Dike contaminated water and remove for disposal and/or treatment. As appropriate, notify all downstream users of possible contamination.  |  |  |  |  |  |
|                        | SECTION 7: HANDLING AND STORAGE   |  |  |  |  |  |
| STORAGE TEM            | MPERATURE:   Ambient   STORAGE PRESSURE:   Ambient  |  |  |  |  |  |
| GENERAL:               | Store in a cool, dry, well-ventilated, area away from incompatible materials and products. Do not get this product in eyes, on skin, or on clothing. Wear recommended personal protective equipment when handling this product. Do not breathe mists. Use only with adequate ventilation. Do not take internally. Keep the containers tightly closed when not in use. Wash thoroughly after handling this product.  |  |  |  |  |  |
|                        | This product is corrosive to Tin, Aluminum, Magnesium, Zinc and alloys containing these metals, and will react violently with these metals in powder form. Some heat may be generated when this product is mixed with water. Never add water to this product. Always add this product, with constant stirring, slowly to the surface of cool to lukewarm ( $50 - 80^{\circ}$ F.) water.   |  |  |  |  |  |

|   | SE  | CTION 8: EXPOSURE CO  | ONTROLS / PERSONAL PROTEC  | TION   |  |  |  |
|---|---|---|--|--|--|--|--|
| CONTROL<br>MEASURES:  | Use a local or general, mechanical exhaust ventilation system capable of maintaining emissions, in the work area, below the OSHA-PEL or ACGIH Ceiling level.  |   |  |  |  |  |  |
| RECOMMENDED PE  | ERSONAL PR  | OTECTIVE EQUIPMENT  |  |  |  |  |  |
| RESPIRATOR:   | For exposure above the OSHA-PEL or ACGIH Ceiling level, or if use generates mists or aerosols, wear a NIOSH-<br>approved full facepiece or half mask air-purifying cartridge respirator equipped with a good mist / particulate filter<br>cartridge or supplied air. <b>Note:</b> Always consult the respirator manufacturer's data when determining the suitability<br>of respiratory protective devices prior to use. |   |  |  |  |  |  |
| EYES:   | Wear chemical goggles (recommended by ANSI Z87.1-1979), unless a full facepiece respirator is worn. <b>Note:</b> Always consult the protective eyewear manufacturer's data when determining the suitability of protective eyewear prior to use.   |   |  |  |  |  |  |
| GLOVES:   | Wear Neoprene, Nitrile, Butyl Rubber, Natural Rubber, or Viton gloves. <b>Note:</b> Always consult the glove manufacturer's permeation data when determining the suitability of gloves prior to use.  |   |  |  |  |  |  |
| CLOTHING &<br>EQUIPMENT:  |   |   |  |  |  |  |  |
| <b>FOOTWEAR:</b> Wear Neoprene, Nitrile, Butyl Rubber or Natural Rubber boots. <b>Note:</b> Always consult the footwear manufacturer's permeation data when determining the suitability of footwear prior to use. |   |   |  |  |  |  |  |

**SECTION 12: ECOLOGICAL INFORMATION** 

### ENVIRONMENTAL FATE:

This product is completely soluble in water. No specific environmental fate information is available. This product will significantly affect the pH of water.

#### **ENVIRONMENTAL CONSIDERATIONS:**

Aquatic toxicity rating for Potassium Hydroxide: 2 (TLM96: 100 to 10 ppm). TLM96 for Mosquito fish (Gambusia affinis) = 80 ppm. Lethal Dose (24 hour exposure): Trout = 50 ppm. Bluegills = 56 ppm. Minnows (Lepomis pallidus) = 28 ppm.

## SECTION 13: DISPOSAL CONSIDERATIONS

RCRA 40 CFR 261 CLASSIFICATION:

RCRA Corrosive Waste

#### U.S. EPA WASTE NUMBER/DESCRIPTION: D002

If this product is disposed of as shipped, it meets the criteria of a hazardous waste as defined under 40 CFR 261 due to its corrosivity. If this product becomes a waste, it will be a hazardous waste, which is subject to the Land Disposal Restrictions under 40 CFR 268 and must be managed accordingly. As a hazardous liquid waste, it must be disposed of in accordance with local, state and federal regulations in a permitted hazardous waste treatment, storage and disposal facility by treatment.
