

## INSTRUCTIONS

**PREPARATION:** Shake well before use. This product should be applied when soil analysis identifies the need and proper application rate. Can be applied in combination with compatible plant growth regulators, pesticides, or other granular nutrients. When impregnating this product to a granular fertilizer with relative humidity levels over 80%, apply granular directly to the field without allowing the product to sit or store, otherwise clumping may occur.

**APPLICATION:** Designed for impregnating granular fertilizers. This product has a blue dye so that application can be verified. For maximum results, incorporate granules into the soil mechanically or with proper irrigation. Applications can be made as often as every 7–10 days, as needed.

**CONDITIONS:** Application timing, intervals, and rates may vary according to individual plant requirement, stage of development, available nutrient levels in the soil, and overall nutritional status of the plants.

**CONSULT:** Consult your local Huma® Representative or qualified individual/institution for use-specific recommendations.

**STORAGE & DISPOSAL:** Do not store this product below 50°F (10°C) or above 90°F (30°C). Keep product in original container. Do not transfer into food or drink containers. Triple rinse container when empty for recycling. Always dispose of container in accordance with local, state, and/or federal regulations.

**DISCLAIMER:** This product is intended as a supplement to a regular fertilization program and will not, by itself, provide all the nutrients normally required by plants.
