

Huma Pro[®] Mix

Guaranteed Analysis

0-2-3

Available Phosphate (P₂O₅).....2.0%
Soluble Potash (K₂O).....3.0%

Derived From: Potassium Hydroxide and Phosphoric Acid

Also Contains Beneficial Substances:

Total Humic Acids (HA) and Fulvic Acids (FA)8.0%
(Analysis using the Colorimetric Method)

Other Test Methods

Total Humic Acid (HA)5.0%
(Analysis using the CDFA Method)

Total Humic Acid (HA)5.0%
(Analysis using the HPTA or ISO 19822 Method)

Organic Matter5.8%

Derived From: Humic Substances

Physical Properties:

Form: Liquid

Appearance: Dark brown, black having a distinctive earthy odor.

Weight: 8.84 lb/gal, 1.06 kg/L

pH: 7.0–8.0

Caution:

Keep out of reach of children. The liquid and mists may be irritating to the eyes and skin. Inhalation of mists may be irritating to the entire respiratory tract. Ingestion of this product may cause gastrointestinal irritation.

Storage and Disposal:

Do not store this product below 50°F (10°C) or above 90°F (30°C). Keep product in original container. Do not transfer into food or drink containers. Triple rinse container when empty for recycling. Always dispose of container in accordance with local, state, and/or federal regulations.

Conditions of Sale:

The information contained in this bulletin is believed to be accurate and reliable. Buyer and user acknowledge and assume all liability resulting from the use of this material. Follow directions carefully. Timing, method of application, weather, plant and soil conditions, and other factors are beyond the control of the seller.

The Solution for Tank Mixing Humic Acid

Huma[®] Huma Pro[®] Mix, carbon-complexed with Micro Carbon Technology[®], is an activated liquid humic-acid source derived from a highly oxidized, naturally occurring humate deposit. Huma Pro[®] Mix can be applied alone or with other liquid fertilizers having a pH range of 2.0–12.0. Huma Pro[®] Mix treats unbalanced soil conditions caused by a lack of humic acid, promoting a stronger, healthier soil for sustainable plant growth. Humic and fulvic acids may enhance plant nutrient availability and uptake.

Benefits of Use:

- Can be tank mixed with other agrochemicals within a wide pH range (2.0–12.0) without precipitating.
- Short-term soil organic matter building
- Short-term soil microbial activation

When to Apply:

- Any time of the year, but recommended to use with pre-plant and post-harvest applications.

Application Instructions:

SHAKE WELL BEFORE USING. This product adds naturally occurring materials containing humic and fulvic acids that may enhance plant nutrient availability and uptake. Can be applied alone or with liquid fertilizers over a wide pH range (2.0–12.0). Can be applied in combination with compatible plant growth regulators, pesticides, or other liquid fertilizers. If compatibility is in question, jar test a small quantity. Do not foliarly apply this product in concentrations greater than 10% without a preliminary foliar test.

METHOD OF APPLICATION	SUGGESTED RATE		
	Field Crops	Tree or Vine Crops	Turf or Horticulture
Soil banded, injected, side dress, drip tape, or micro sprinklers	Up to 1 gallon/acre, 10 liters/hectare	Up to 2 gallons/acre, 20 liters/hectare	Up to 6 oz/1000 ft ² , 210 mL/100 m ²
Sprinklers: solid set, drag lines, linear, or pivot (100% speed)	Up to 2 gallons/acre, 20 liters/hectare	Up to 3 gallons/acre, 30 liters/hectare	Up to 9 oz/1000 ft ² , 315 mL/100 m ²
Soil broadcast spray incorporated, flood or furrow irrigated	Up to 2 gallons/acre, 20 liters/hectare	Up to 4 gallons/acre, 40 liters/hectare	Up to 12 oz/1000 ft ² , 420 mL/100 m ²
Mixed in liquid fertilizer solution	Up to 2 gallons/40 gallons liquid, 20 liters/160 liters of liquid		

This product contains Micro Carbon Technology[®] (MCT), a proprietary blend of very small organic molecules that allow for more effective absorption of nutrients by plants.
