

## INSTRUCTIONS

**PREPARATION:** Shake well before use. Can be applied in combination with compatible plant growth regulators, pesticides, or other liquid fertilizers. If compatibility is in question, jar test a small quantity. Do not foliarly apply this product in concentrations greater than 10% without a preliminary foliar test.

**APPLICATION:** Designed for foliar and/or soil application. This product supplies nutrients to plants and should be applied when tissue and soil analysis identifies the need and proper rate of application for this product. Best results will be obtained when application is concentrated on the plant surface or in the active root zone. Apply foliar sprays with sufficient water to ensure uniform coverage without running off leaf surfaces. For maximum results, apply early in the morning or in the evening when air temperatures are optimum for foliar application. For optimum results, this product should be applied with Huma® Calcium at ½ the dosage rate of this product. Nitrate blocker can be applied with this product if nitrogen levels are above 3% for leaf tissue or above 10,000 ppm for petiole analysis. The first application should be 15–30 days prior to defoliation or harvest. Full label rates can be applied as often as every 7–10 days, as needed.

**CONDITIONS:** Do not apply nutrients during the hottest time of the day or to plants under drought or flood stress. Application timing, intervals, and rates may vary according to individual plant requirement, stage of development, available nutrient levels in the soil, and overall nutritional status of the plants.

**CONSULT:** Consult your local Huma® Representative or qualified individual/institution for use-specific recommendations.

**STORAGE & DISPOSAL:** Do not store this product below 50°F (10°C) or above 90°F (30°C). Keep product in original container. Do not transfer into food or drink containers. Triple rinse container when empty for recycling. Always dispose of container in accordance with local, state, and/or federal regulations.

**DISCLAIMER:** This product is intended as a supplement to a regular fertilization program and will not, by itself, provide all the nutrients normally required by plants.

## 0-1-20 GUARANTEED ANALYSIS

Available Phosphate (P <sub>2</sub> O <sub>5</sub> ) .....	1.0%
Soluble Potash (K <sub>2</sub> O) .....	20.0%
Boron (B) .....	0.5%

Derived from Phosphoric Acid, Potassium Hydroxide, and Boric Acid.

## SHAKE WELL BEFORE USE

**WARNING:** This fertilizer contains trace amounts of Boron (B). The use of this fertilizing material on crops other than those recommended may result in serious injury to the crop(s).

Do not foliarly apply this product in concentrations greater than 10% without a preliminary foliar test.

First application should be 15–30 days prior to defoliation or harvest. Full label rates can be applied as often as every 7–10 days, as needed.

## APPLICATION

METHOD	SUGGESTED RATE	
	Field Crops, Sod, and Specialty Crops	Tree or Vine Crops
Foliar band application at 50% coverage	Up to 1 qt./ac, 2.5 L/ha	–
Foliar broadcast or sprinklers: solid, set, linear, or pivot (100% speed)	Up to 2 qt./ac, 5 L/ha	Up to 3 qt./ac, 7.5 L/ha
Soil banded or injected through drip tape or micro sprinklers	Up to 2 qt./ac, 5 L/ha	Up to 3 qt./ac, 7.5 L/ha
Soil broadcast spray incorporated, flood or furrow irrigated	Up to 3 qt./ac, 7.5 L/ha	Up to 1.5 gal./ac, 15 L/ha

11.01 lb per gallon @ 68°F.  
1.32 kg per liter @ 20°C.  
pH ≥ 14.0

2.5 gallons • Net Wt. 27.53 lb  
9.46 liters • Net Wt. 12.49 kg  
Lot No. 12345678

## SAFETY

**KEEP OUT OF REACH OF CHILDREN**

Information regarding the contents and levels of metals in this product is available on the Internet at: <https://www.aapfco.org/metals.html>

The liquid and mists are corrosive to all tissues contacted. Inhalation of mist can cause permanent lung damage. Moderately toxic by ingestion. This product can react vigorously with acids and other substances, materials, and/or other products.

**CLASSIFICATION:** CATEGORY 1A – SKIN CORROSION

**SIGNAL WORD:** DANGER

**HAZARD STATEMENT:** H314 Causes severe skin burns and eye damage.

**PRECAUTIONARY STATEMENT:** P260 Do not breathe dusts/mist/vapors; P280 Wear protective gloves/protective clothing/eye protection/face protection; P264 Wash hands thoroughly after handling.

**PRODUCT CHARACTERISTICS:** A clear to slightly hazy, dark red brown liquid having a characteristic odor. The color, pH, specific gravity, as well as the smell, can vary. Variations may occur due to changes in temperature, atmospheric pressure, weather conditions, and/or exposure to light from when the product leaves the factory until it reaches the final consumer.

**CONDITIONS OF SALE:** The information contained on this label is believed to be accurate and reliable. Buyer and user acknowledge and assume all liability resulting from the use of this material. Follow directions carefully. Timing, method of application, weather, plant and soil conditions, and other factors are beyond the control of the seller.
